

Iredell Primary Care for Women
114 Gateway Blvd. Suite B
 Mooresville, NC 28117

Appointment categories

Preventative Physical Exams: This appointment is designed to review your medical history, perform a physical exam to evaluate for possible new health concerns, review the need for health maintenance procedures and educate on healthy lifestyle and living. It is not designed to focus on one physical complaint or the management of specific medical complaints. Insurance coding and guidelines limit these types of visits to be focused on preventive care. Future appointments will be made for chronic medical problems and for the evaluation of new problems.

Office Visits: This appointment is designed to focus on the diagnosis and treatment of a medical problem. It is designed to review chronic health problems or diseases and evaluate acute medical problems.

Our office is by appointment only. We will do our best to accommodate sick visits within a reasonable time frame.

******If at all possible, please come to your first appointment fasting. Fasting is defined as having nothing to eat or drink (other than water or black coffee) for eight hours. Thank you!!**
